19th August, 2021

The Vice Chancellor,
Igbinedion University, Okada,
Edo State, Nigeria.

Dear Sir

PROPOSAL FOR THE DEPLOYMENT OF CBT APP
FOR IGBINEDION UNIVERSITY OKADA, EDO STATE, NIGERIA.

We hereby submit this proposal to request the deployment of University Computer Based Test (CBT) Software for Igbinedion University, Okada.

Bridgedata Technology Ltd is an IT Technology Company that focuses on the development, manufacturing and deployment of technology products, providing technology as a service. This includes businesses relating to digital electronics, software, and internet-related services.

SCOPE OF WORK

We aim to deploy and maintain the CBT software that will suit the University examination pattern and model. The software is user friendly with clean architecture and design for admin and regular-user interface. The software module will be adapted to the University examination requirements, and the source code will be given to the ICT technical team of the University. A train-the-trainer approach will be used to train the technical team of the University by our company's team of developers, so that knowledge about the use of the system is internalized systemically to the University and guaranteed to be continuous.
The software is readily available for deployment as soon as the University management gives to approval.

BRIDGEDATA TECHNOLOGY LTD.

No 23 Kufuriji Street, Orile Iganmu, Lagos State, Nigeria.
Tel: 09048609916, 08053933961, bridgedatatechnology@gmail.com

SOFTWARE FEATURES

- **Colleges & Departments**

- **User management**

- **Question management**

- Multi-variate question type
- Fill-in-the-gap (i.e. subjective question type)
- Multiple Options Multiple Answer (i.e. medical sciences question type)
- True/False question type
- Bulk insert (with Excel import instructions and question type descriptions for each question type, including an affordance to download sample questions for all supported question types)

Test management

CBT (with video recording of student CBT session for audit purposes, etc.)

- User view list of available tests
- Focused CBT question dispensing mode: user sees only one question at a time
- User view test score after test completion (**based on admin settings**)
- CBT session can be recorded (**video recording**) and submitted for server archiving
- Admin: nice User Interface (UI) to view active users

Result Management

- Generate result in Excel format
- Sorting
- Server-managed CBT timing session
- Simultaneous CBT session module
- Scores merge module

Investigator/Auditor (A checker with an accessible UI) showing:

- That the IP address that started the CBT session is the same IP that accessed subsequent questions
- A consistent IP managed a CBT session from start to finish.

- A way to view the screen recording of user CBT session
- A way to review a user CBT session, including the details of questions attempted and the answers provided by the user (with time, etc.)

Server security/system maintenance

- A secured, journal-based relational and document-based database for scalability and efficiency.

PRICING

The following table details the pricing for deployment and delivery of the services outlined in this proposal.

Services Cost	Price
Reusable University CBT Software	₦4,860,000.00
5 Years maintenance/Support	included
Total Services Costs	₦4,860,000.00
Total
